EXCHANGE PROGRAM 2018 REPORT

A students cultural and academic exchange program was arranged at Augusta University ,Augusta Georgia from **9 sept to 15 sept 18** under guidance of Dr Kiran Shaligram, Dr.Chandramohan Wakade,Dr Aparna Sadhale. **Dr Atiya Shaikh, faculty DES Brijal Jindal College of Physiotherapy, Pune, along with 6 students (Anagha Chandrashekhar, Gargi Sonawane, Devaki Kale,Manasi Bhide,Janhavi Bhide, Trishala Nainwal) participated in this exchange program.**

Prasad Vanpal from Indian consulate was of great help in Atlanta for the delegates. He ,along with Mr.Ambar Mehta ,Mr and Mrs Venkat and Mr and Mrs Gadne made sure that delegates were taken well care of in Atlanta during their 2 days of stay. Delegates were also invited for lunch by Dr.Swati Kulkarni, Indian consulate general of Atlanta. Dr.Kulkarni who herself is a MBBS doctor provided students with guidance and shared ideas with them about career urging them to participate in community services. .Visiting the BAPS temple,CNN center,Georgia aquarium, Coca Cola Museum, Street car ride Centennial park walk,dinner, opening of restaurant of Mrs and Mrs Gadne and luncheon arranged by Mr and Mrs Ambar were greatly enjoyed by the team.

The team was hosted by Dr Chong and Mrs Chong at their residence during their 9 days stay in Augusta. Transportation and guidance responsibility was shared by Dr. Chong, Dr. Wakade.A team of qualified doctors from Augusta University (Dr. Marie and Dr. Debra, Dr. Lawrence, Dr. Chatto, Dr. Lori, Dr. Margaret, Dr. Lauren, Dr. Yolanda, Dr. Heather) helped the group throughout their journey in the university. Mrs Rose and Mrs Swati made sure that all were provided at most comfort at home.

Team visited multiple clinics and labs at University during their 5 days of academic schedule at Augusta University. Real monitors and ventilators and automatically responding human body simulators at AU simulation center converted theoretical learning to a real life experience. They also participated in in birthing simulation which was highly appreciated by students.

Students visited out patient physical therapy department where they saw different types of high end walking aids and learned about orthotic prescription criteria. The group went to University hospital next day where they observed post operative rehabilitation for orthopedic,cardiac cases and post stroke rehab. Although the set up was different ,the treatment provided and rationale for it were same thus, students found it easy to grasp the treatment style and help in treatment for the patients whenever required.

A visit to the Anatomy lab and 3 D printing library stimulated students in appreciating integration of technology for making learning easy. It also opened a new discussion between DES and AU teaching staffs for use of this technology in making models of human body for enhancing understanding of basics for undergrad students. Collaborative research between faculties at both places in future was also discussed.

Faculties also discussed about similarities and differences between the teaching learning methods, curriculum, practice styles and research.

Students attended few lecture sessions with the Augusta students. The lectures were based on integrated teaching model, hence Indian students got to participate and observe a different model of learning. An introductory session on Tai-chi and a practical of Tai-chi by Dr. Hailei Zhao was appreciated by all.

Team also got an opportunity to discuss about Licensure exam and other details for practice in USA with some Indian physical practitioners settled in USA .It helped the team to understand intricacies of USA licensure exam and work visas. It was noted that, Indian students lack in general credits and hence they should cover this credits before applying for license in USA. Need to such courses,and reformatting of transcript was suggested by Dr Sandy who is a member of Georgia state licensure exam body.

A fun filled cultural experience was gained in Arts in The Heart Festival where students visited more than 25 country stalls and took experience of their crafts and food. The tour came to end by visit to Savanna canal walk and Augusta city tour. The experience was enjoyed and appreciated by students. They expressed need of more of such programs which will help them to broaden their horizon and help them understand cultural and professional practices around the world. Timing of the visit was found to be the most appropriate as the students were well exposed to the culture and working styles in USA ,they found appropriate guidelines for application of masters programs or licensure exams hence can prepare in advance which will definitely help them in grabbing the best opportunities in the field in USA. The team expressed heartfelt gratitude for all the help extended by AU,DESB/COP , Mr.Vanpal, Indian Consulate, Venkat family, Mehta family, Chong family and Wakade family.

Beneficiaries of the camp: Geriatric individuals of the old Sanghvi area.

Number of beneficiaries: 60

Materials used in the camp: Assessment forms, Geriatric depression scale, Montreal Cognitive assessment scale, peak flow meter, Micro RPM, cones, weighing machine, measuring tapes, exercise charts.

Camp details: The camp was organised in collaboration with the International Longevity Centre – India and was conducted to perform an initial evaluation of the geriatric individuals of the Old Sanghvi area.

The Senior Citizens' Association of the Old Sanghvi area had very graciously allowed us to use their headquarters to conduct the camp. Multiple stations were set up for different tests to be performed. The individual was evaluated at each station and the result of the test was recorded there. A separate bed had been set up for an overall musculoskeletal evaluation of the individual.

A baseline evaluation was performed which charted the individuals' height, weight, blood pressure and body mass index (BMI).

Tests that were performed were as follows:

1. PEFR
2. Inspiratory and expiratory muscle strength
3. Timed up and go test
4. 2 minute walk test

The Geriatric Depression Scale was used to identify the level of depression in these individuals. The cognitive function was assessed using the Montreal Cognitive Assessment scale.

The elderly appreciated the camp and we received a very affirmative feedback from them. The major characteristic that was highlighted was the very positive and helpful attitude that was shown by the staff and students of our college. The other feedback given was the appreciation of the variety of functions that were being assessed in this camp. Most of the participants said that they had not considered the effect of age on the cognitive function in any of their previous evaluations.

Overall, the camp was indicative of the different systems that need to be targeted in the elderly individual and was well appreciated.

Training Report

Module for: Community Helper training module.

Date of Training: 14.06.2019.

Site of Training: D.E.Society's Brijlal Jindal College of Physiotherapy, Pune.

Participants in the camp: Abha Dhupkar, Rutuja Kowale, Mithila Pawar, Rashida Hamid, Farheen Patel, Shikha Vora, Shravani Sathe.

Beneficiaries of the camp: Bahgyashree Deo (Senior Project Coordinator), Aarogya Seva Vardhini Aarogya maitrini.

Number of beneficiaries: 4

Materials used in the camp: Yoga mats, chairs, plinths.

Training details: This training module was taken to educate and prepare the aarogya maitrin for providing specified exercises to people of her community, who have been identified with musculoskeletal problems. The aarogya maitrin was shown exercises for 4 commonly affected regions of the body: the neck, shoulder, low back and knee. She was then asked for her preference amongst these exercise sets. Later the aarogya maitrin was asked to perform the exercises herself and was supervised by the MPT students and staff members. Necessary instructions and corrections were provided to the aarogya maitrin while she showed the exercises. They too cleared their doubts. The training was in preparation for these women to provide exercises to the members of their community, hence they were asked to practise the exercises till they felt themselves to be comfortable in the instructions and performance of the exercises.

The beneficiaries appreciated the method of teaching exercises and were enthusiastic to start practising themselves.

ANKUR ACTIVITY

Ankur Vidya mandir, Pune is a special school run for special children. It includes children with down's syndrome, Cerebral Palsy, Autism spectrum disorder, mental retardation, sensory processing dysfunction and other paediatric conditions. These children have been treated at OPD of DES Brijlal Jindal College of Physiotherapy, Pune since 2010 for free.

The staff and students posted in OPD of the college treat these children.

18 children were treated four times a week for whole academic year of 18-19.

22 children were treated in Academic year 22-23.

TO WHOM SO IT MAY CONCERN

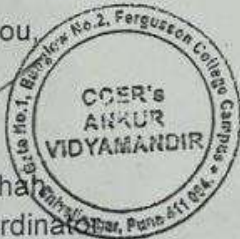

This is to certify that faculty and students of DES (Brijlal Jindal College of Physiotherapy) Pune are treating the family deprived and destitute children of Ankur Vidyamandir, (The Inclusive school and therapy centre run by COER) since the year 2010. Children are benefited by the therapy and is found to be very satisfactory.

This therapy is indeed helpful for the children and we appeal to the college to continue this engagement of students on an ongoing basis. We are very thankful to the college for the facility provided.

This association will continue in future.

Thanks you,
