Respected
Dr. Harshada Ma'am,

Jyeshwari Told me about the mentorship program, it sounds really good. Her experience is very nice with you, she tells. ~~For~~ Personally I feel she is improving her performance day by day and sessions with you helps her a lot in understanding herself and study techniques in a better way.

However I feel you should increase the frequency of the sessions and also should talk about the small problems she faces on campus. This will help her to take her insecurities and be confident in her studies and college life.

Also a lot of credit for academic growth goes to you. Thank you for the sessions.

Harshraj
