D.E. Society's BRIJLAL JINDAL COLLEGE OF PHYSIOTHERAPY

A workshop on Stress Management was conducted for the

Undergraduate students: II, III and IV B.P.Th

Dates:

Session 1: Date: 10th August 2019, Saturday, 1 pm to 5pm Session 2: Date: 24th August 2019, Saturday, 1 pm to 5pm

Resource person: Dr. Anand Godse (Ph.D. Psychology)

The sessions were highly interactive and were conducted exclusively for the students and involved no involvement from the staff (apart from that required in the organisation) in order to enhance their uninhibited participation. The workshop was well received by the students of all classes. The attendance and feedback of the respective batches is attached to the report.

Feedback from the II B.P.Th. students

We all liked the session conducted by Godse sir. It was interactive, productive and really helpful. It helped us to reduce our inferiority complex as we realized that we are facing similar problems. It gave us an insight and helped us in increasing self awareness.

The session improved our thinking pattern. He suggested how to improve interaction will benefit us in the coming years. Sir taught us mind body interdependence in a very simple and friendly way. On the whole, sir covered many important topics which will be of great help to us.

We would like to have more sessions in the year to come.

Feedback from the III B.P.Th. students

Varied activities were conducted which made us realize how often we complicate simple situations. Throughout the session there wasn't even a single dull moment.

We played a few games that made us realize that we are a part of a chain/ society and need to be an active participant and blend with others and live in harmony.

One of the students attained the position of 'Shirsasan' and we discussed about the importance of balance. The correlation between physical balance and ability to attain balance in emotional aspect is equally important.

Overall, the session was enjoyed thoroughly and we all had something to take back home. We would love to be a part of many such sessions. It was a complete stress buster and something different from the monotonous routine.

Feedback from the IV B.P.Th. students

One of the highlights of the session was understanding the significance of mental practice through assumption of seemingly difficult yoga positions and the wrestling activity. Both of these offered a much needed glimpse of the importance of self awareness and focus. It was unanimously felt that the light and transparent nature of the workshop allowed everyone to be uninhibited and therefore more engaged. Various aspects were touched upon, which included stress and time management and self awareness amongst others.

However, what could have helped more was coming up with easily applicable and practical day to day life strategies to better manage stress.

The Question Answer session was the most appreciated and of help. A session at the beginning of the year and another midyear would be of help.
